

More than 287 ethnic Amharas were brutally massacred in two major Oromo Liberation Army (OLA) terror attacks in the North Shewa Zone of the Amhara Region

Introduction

The Amhara Association of America (AAA) is dismayed to find that at least 287 Amharas were killed and over 363 others were wounded in two major attacks by the Oromo Liberation Army (OLA) in the Semien (North) Shewa Zone of the Amhara Region in the months of March and April of 2021. AAA's investigation also revealed the names of at least an additional 17 ethnic Oromo victims of the violence. The OLA were also joined by a group of ethnic Oromo ultranationalist youth from the Oromia Zone of the Amhara Region of Ethiopia. They perpetrated the killings of ethnic Amharas, looted and destroyed public and private property, and burned Amhara towns and villages. It is also said that members of the Oromia Zone administration security personnel were involved in the attacks. According to the accounts of two anonymous North Shewa Zone security personnel, and at least 23 internally displaced people (IDPs) who arrived in Debre Berhan (a city located in the North Shewa Zone), the Oromia Zone Administration security personnel joined OLA to attack ethnic Amhara citizens in the area.

Methodology

AAA employed different methods of data collection to prepare this report, including field visits, interviews and reviewing incident reports prepared by local government offices. The field visits were made in two rounds. During the first round of field visits from March 22nd-25th, the AAA team made a trip to Ataye and surrounding areas. The purpose of this trip was to assess the extent of the human rights violations committed by the assailants in early March 2021. Accordingly, AAA spoke to survivors, IDPs, local officials, and visited villages and towns that had been looted and destroyed. The second field visit was conducted from April 16th-19th, and focused on areas that were hit the hardest during the April 2021 attack including Ataye, Shewa Robit, and different Kebeles (precinct/ward) within the Efratana Gidim (Efrata and Gidim), Antsokiyana Gemza (Antsokiya and Gemza) and Kewet Woredas (districts).

In preparing this report, AAA also interviewed over 50 sources on the ground, including survivors, local administrators, IDPs, and consulted official documents covering any incidents that occurred in the North Shewa Zone since January 2021.

Background

The North Shewa Zone, one of the eleven zones in the Amhara Region, has become the epicenter of OLA's violence in the region. It is partly because it shares borders with the Oromia Zone of the Amhara Region, which has reportedly become a hub for OLA military activity in the region following the Oromo Liberation Front's (OLF) return to the country as a legal entity in 2018. Their influence has spread across the zone, as well as the Oromia Regional State, where the rebel group has created a stronghold. The North Shewa Zone is bordered by the Oromia Regional State on the south and west, and by the Oromia Zone of the Amhara Region on the northeast.

In the first half of 2021, AAA has recorded two major OLA attacks that targeted civilians in towns and villages in the North Shewa Zone. The attacks caused at least 650 civilian casualties (287 deaths and 363 injuries). AAA has also confirmed that there was widespread looting and

destruction of civilian property and public infrastructure in the affected areas.

- The first attack, which begun on March 19 and spanned almost a week, targeted several districts and towns of Amhara Region. The targeted areas included Efratana Gidim, Antsokiyana Gemza (Antsokiya and Gemza) and Kewet Woredas, and Shewa Robit and Ataye towns. The attacks resulted in the deaths of at least 194 ethnic Amhara civilians and injured more than 212 others which is a substantial number of casualties for a single attack. The OLA, along with their Oromo youth, and Oromia Zone administration accomplices, had destroyed and burned public and private property resulting in more than 40,000 people fleeing their homes. According to AAA sources, the raid began with an attack on the town of Ataye, the administrative center of Efratana Gidim Woreda, at around 9:00 pm on Friday, March 19, 2021. In the following days, the militias managed to infiltrate villages and town such as Shewa Robit in the neighboring administrative areas of Kewet and Antsokiyana Gemza Woredas.
- The second attack, began on Wednesday, April 14th, 2021, and lasted for about a week targeting all areas that were affected during the first round of OLA attacks in March 2021. The attacks in this round also originated in Ataye and later spread to Majete, Alala Negeso, Jawuha and Shewa Robit. In this attack, about 93 ethnic Amharas were killed and at least 151 others were wounded. As a result of this round of attacks by the OLA, at least 250,000 people were displaced. In addition to civilian casualties, the assailants were highly motivated in looting, destroying, and burning private and public property. According to the accounts of victims and local officials, after the OLA militias occupied Ataye and surrounding areas, a group of ultranationalist youth from the Oromia Zone went house-to-house looting and destroying Amhara-owned houses.

AAA's investigation revealed that the attacks were well organized and supported by people within the government structure. OLA members, Oromia Zone administrators, and a group of ethnic Oromo ultranationalist youth from the Oromia Zone joined forces to attack innocent

Amharas. At least 20 IDPs who were sheltered in Debre Berhan after the attacks recounted that OLA militants indiscriminately shot at innocent civilians during the March 2021 attacks. They also attested that Oromo youth from the neighboring Oromo Special Zone, had crossed into the North Shewa Zone to engage in looting, destroying, and burning community property. This witness account was also corroborated by at least two anonymous security officials of the North Shewa Zone.

The news of the alleged involvement of Oromia Special Zone officials in the attacks has been very troubling for AAA. Two security officials from North Shewa Zone told AAA how the Oromia Zone security apparatus prevented the Amhara Special Forces (ASF) members from reaching Ataye and the surrounding areas during the initial attack on March 19th, 2021. They stated that some units of ASF that were previously deployed to the Amhara-Tigray border were ordered to move to the North Shewa Zone to restore the rule of law and safeguard the lives of the residents. Regrettably, as soon as the ASF convoy arrived in Kemisse town, the administrative center of the Oromia Zone, security personnel of the Zone surrounded and opened fire on the convoy. The attack on the convoy raises suspicion on the alleged collusion between the Oromia Zone officials and the OLA militants because there was no other apparent reason for the attack. Residents also attested that vehicles belonging to the Oromia Zone administration with distinct emblems and markings were used by the assailants to carry out the attacks which also alludes to collusion ¹. The sources also noted that they saw the long-haired OLA militias, Oromia Zone security personnel, along with Oromo youth attacking Amhara residents.

The IDPs and survivors of the massacres went as far as accusing the federal security forces of being complicit in what they described as ‘genocide against Amharas residents of the area.’ Although they avowed that the federal government security forces did not directly kill Amhara civilians, their inaction, during the beginning of the March and April attacks, indicates their culpability. During both the first and second rounds of attacks, members of the Ethiopian

¹Corroborating this account, two anonymous security officials of the North Shewa Zone told AAA that pick-up vehicles that belong to Senbete town of the Oromia Special Zone, were controlled by members of the ASF at Ankober checkpoint while transporting munitions amounting to 26,000 bullets to hostile areas to escalate the confrontation.

National Defense Forces (ENDF) and the Federal Police Commission were in the area but reportedly failed to respond to cries for help, particularly in the first two days of the attacks. It is also said that the ENDF soldiers prevented members of the ASF from intervening. For instance, one of the residents of Shewa Robit said “[ENDF] soldiers and federal police not only failed to protect the residents and their property, but actively blocked law enforcement efforts by the ASF,” an account corroborated by at least five other residents of the town ². They also attested that when victims tried to defend themselves against the perpetrators, ENDF soldiers and federal police officers attacked them.

Recorded Human Rights Violations

Civilians Casualties: Killings and Injuries

OLA has killed unarmed and fleeing civilians based on their Amhara identity in the ethnic-based attacks documented by AAA in March and April 2021. As a result, 287 ethnic Amharas were killed and at least 363 others were wounded in various areas of North Shewa Zone. In addition, at least 17 ethnic Oromo civilians were also identified as victims of the violence. The most affected areas include Ataye, Shewa Robit, and rural and urban kebeles within the districts of Efratana Gidim, Kewet and Antsokiyana Gemza Woreda.

Extrajudicial killings

Of the 287 Amharas massacred in the two rounds of ethnic-based attacks, AAA has obtained a list of the names of 271 victims to date. AAA’s investigation also revealed that an additional 17 ethnic Oromo victims were also killed in Ataye town.

Farming-related destruction

The agricultural systems were also devastated by extensive looting and destruction. The attacks had severe impacts on food production of families in the affected areas, where unharvested crops were destroyed, agricultural inputs and equipment lost, and livestock looted. AAA's investigation revealed the following farming-related destruction, damage or theft to farming assets:

- The assailants totally damaged standing crops on at least 1,257.45 hectares of land causing production losses of 24,065.39 tonnes of crops, worth 650.6 million ETB in Efratana Gidim and Antsokiyana Gemza Woredas alone.
- At least 119 farming household heads in Efratana Gidim Woreda had to leave some 337 tonnes of vegetables on the field to rot due to the lack of buyers resulting from the security situation. The estimated monetary loss for the farmers is a value of 2 million ETB.
- Haystacks, with a total estimated value of 695,000 ETB, had been torched. Of these haystacks, 383,000 ETB were destroyed in Antsokiya Gemza Woreda, affecting 63 farming household heads. The remaining damage was reported in Briqtu, Alala and Negeso Kebeles of Efratana Gidim Woreda.

- Sixty-one irrigation water pumps were looted in Efratana Gidim and Kewet Woredas and at least one animal clinic had its equipment destroyed, and drugs and vaccines looted.
- At cost of 1.3 million ETB, a generator destined to run agricultural irrigation deep well pump in H/Mariam Kebele of Antsokiya Gemza Woreda was destroyed.
- At least 592 cattle were stolen from Efratana Gidim, Kewet and Antsokiyana Gemza Woredas. In addition, at least 2,538 chickens (1,638 in Negesso Kebele of Efratana Gidim Woreda and 900 in Ataye), and 104 goats (97 in Negesso Kebele and 7 in Shewa Robit) were either looted or killed.

Internal Displacement

The attacks against the residents were not limited to extrajudicial killings and wounding of civilians, but also included systematic looting and burning of villages and towns. These actions destroyed residents' sense of security, and strained living conditions for hundreds of thousands of Amhara residents in the North Shewa Zone ¹⁹. AAA's investigation reveals that about 300,000 Amhara residents were displaced to neighboring areas such as Mekoy, Debre Berhan, Ferduha, Bergbi, Menz, and Mehal Meda as a result of the raids.

- In the first round of attacks, which began on March 19, 2021, about 40,000 Amhara residents were forced to flee to neighbouring areas including Ferduha, Bergbi secondary school, Mehal Wenz, Menz and Mehal Meda ²⁰. About 19,000 people were forced to flee their homes from Ataye town and more than 16,000 people were displaced from the Shewa Robit town administration and Kewet Woreda. Though the exact number of people displaced from the entire Efratana Gidim Woreda is unknown, residents and administrators have said that thousands had been displaced.
- In the second attack that was carried out beginning on April 14th, 2021, more than 250,000 residents ²¹ were forced to flee their homes and were sheltered in the Mehal Meda site of Efrata Woreda (25,000), Ber Gibi site of Gidim/Ataye Woreda (95,000), Mekoy site of Ansokiya Woreda (10,000), Shewa Robit (23,000), and Debre Berhan (100,000). Some of the IDPs were displaced for a second time and this has caused them tremendous psychological pressure.

Significant numbers of IDPs are still in temporary shelters as their homes were completely

¹⁹AAA confirmed that certain vulnerable populations, who were relying on the support of the local government for their livelihoods, have been severely affected by the violence. As the attacks disrupted the orderly conduct of government operations in the affected areas, this group of people found themselves at much greater risk of starvation. According to data provided by local officials, a total of 3,245 vulnerable people, consisting of 1,281 elderly people, 1,847 people with disabilities and 117 orphans, have been severely affected by the crisis in North Shewa Zone.

About Amhara Association of America (AAA)

The Amhara Association of America (AAA) is a non-profit civic organization located in Charlotte, North Carolina that investigates and documents human rights atrocities and repression against Amharas in Ethiopia. AAA seeks to inform U.S. policymakers, international human rights organizations, media, and all Ethiopian stakeholders to pressure Ethiopian leaders to change laws, policies, and practices in Ethiopia so perpetrators are held accountable and victims receive justice. AAA also collaborates with Amhara organizations in the U.S., supports independent Amhara organizations in Ethiopia, and provides humanitarian aid for Amharas impacted due to targeted ethnic attacks. AAA's funding comes directly from members and supporters; the organization is not affiliated with any Ethiopian or American political or governmental entities.
