

Summary of recent recorded drone and air strikes in Amhara Region, Ethiopia

Updated November 24, 2024

Overview

The Amhara Association of America (AAA) has documented human rights violations and conflict developments in the context of the war in Ethiopia's Amhara Region.¹

Throughout the conflict the Oromo Prosperity Party regime's armed forces, primarily the *Ethiopian National Defense Force* (ENDF) has carried out drone and air strikes which have resulted in disproportionate civilian casualties.²³

- For the period **between September 25th and November 23rd, 2024 (60 day period), over 72 drone and airstrikes were reported across 52 incidents.**

- The incidents were reported across 38 woreda administrations in 10 zonal administrations of Amhara Region. Zones in which incidents were recorded

include West Gonder, Central Gonder, South Gonder, North Gojjam, Awi, West Gojjam, East Gojjam, North Shewa, North Wollo and South Wollo Zones.

- Casualties were confirmed in 31 incidents. Though the majority of recorded incidents involved deadly attacks, in some instances sightings were attributed to aerial surveillance however, attacks have often been reported following periods of surveillance. In some incidents, attacks resulted in property losses.
- Over the reporting period, **434 casualties were recorded including 321 persons killed and 113 injured** with the majority being civilians. Among the victims were young children, women, and elderly persons.

- The following table summarizes drone and airstrikes recorded for the period between September 25th and November 16th, 2024.
